

Comparison of Characteristics of Lawns supplied by

Eden Lawns

A CUT ABOVE
THE BEST

	Drought tolerance	Growth rate	Light requirement	Colour	Leaf size	Mat density	Foot traffic resistance	Frost Tolerance	Indigenous/exotic
LM Berea 	tolerant	fast grower	shade semi-shade sun	dark green	broad	thick (50mm)	not resilient	not tolerant	indigenous
Buffalo 	tolerant	slow grower (less mowing)	semi-shade sun	dark green	broad	thick (50mm)	resilient	tolerant	indigenous
Buffalo/Kweek 80/20 	tolerant	slow grower (less mowing)	semi-shade sun	dark green	broad and fine (more broad)	thick (50mm)	resilient	tolerant	indigenous
Buffalo/Kweek 50/50 	tolerant	slow grower (less mowing)	sun	dark green	broad and fine	thick (50mm)	resilient	tolerant	indigenous
Kweek 	tolerant	slow grower (less mowing)	sun	dark green	fine	thin (20mm)	resilient	not tolerant	indigenous
Kikuyu 	requires a lot of water	fast grower	sun	light green	fine - broad *	thin-thick *	resilient or not *	not tolerant	exotic

*depends on mowing practise
